Date: October 20, 2015

To: Budget Committee, Town Manager, Board of Selectmen

From: Kristi Pulliam

Subject: 2016 Budget Book

The following 2016 Budget was prepared by the Town's departmental managers and then reviewed, adjusted and approved by the Town Manager and finally the Board of Selectmen.

You will notice that I have made some improvements to the budget format this year. I met with Nathan Lunney (Business Administrator, SAU 90) to go through how the school budget is put together and came away with some ideas that I have incorporated into this budget. One of the biggest improvements is the size of the font and format of each page. This year you will also find more detail provided on line items to help understand the breakdown of each account. In the detailed section of the budget you will find a "Note:" following any line item that has either increased or decreased from 2015 explaining why the change occurred. You will also see notes where the Town Manager or Board of Selectmen have made adjustments in the detail section. Lastly we have added an appendix G this year that includes any additional detail that may have been provided by a Department Head along with an analysis that I have prepared in regards to gasoline and diesel expenses.

I would draw your attention to the third page of the Operating Budget Summary by Department (page Sum3), in column H — B.O.S. — the total budget being submitted is \$26,762,945. When this amount is compared to the 2015 budget of \$26,505,896 — it shows an overall increase of \$279,858 (or .97%). This increase is related mostly to the overall increase in health insurance of 17.3%.

The Appendix section currently does not include the Default Budget as it is still being prepared and is expected to be reviewed by the Board of Selectmen next Monday night. Once it is completed it will be forwarded along to the Budget Committee.

If you have any questions, please let me know.

TAX COLLECTOR'S OFFICE,

100 WINNACUNNET RD. HAMPTON, NH 03842 PHONE: (603) 926-6769

EMAIL: TAX@HAMPTONNH.GOV

Please find the following changes to the Tax Collector's Office Budget:

1) Supplies and Expenses: This line item contains 2 sublines and is being lowered by \$1,531.00;

<u>General Office Supplies</u> remains at \$850.00 and has been the same since **I** started here in 2007. This line item is used for supplies/repairs to office equipment and also used if new equipment, such as a new copier, is needed.

Interware Software System and Support is being lowered by \$1,531.00, (from \$5,181.00 to \$3,650.00.) This item is the contractual usage and support for the tax software and also includes any custom reports we need Interware to create for us. We do not know the cost of these custom reports so I have to guess on the amount. Currently they are working on a "Final Tax Data Report" that will be printed for the end of each fiscal tax year and will show what was paid for principal and interest, and any amounts still due. These paper records are necessary in case the computer software system changes or is unavailable. Paper records of Final Tax Data are kept as far back as 1970's. It is the only access we have to the history of the tax data. They have also created specialized reports that only the Town of Hampton uses...for example our 3 different tax rates needed to be updated in their system in a program that saved the tax rate data from warrant to warrant so that we did not have to physically update each parcel prior to running the tax warrant. The software company also raises the cost of support yearly. This line item covers all the above and I am lowering it based on past history. (The bill for Interware Software Support has not been paid for 2015...it gets paid in December of each year.)

2) Staff Development: This line item is being lowered by \$445.00 and contains 3 sublines;

<u>NH Tax Collector's Association Membership</u> remains the same at \$100.00 (\$50.00 each for Tax Collector and Deputy)

<u>Annual Convention/Workshops</u> I tried to decrease this last year, but due to the default budget it remained the same. I have lowered this item due to not attending the New Collector's Workshops by \$100.00 as it is not needed anymore.

Estimated Mileage has been lowered by \$100.00 based on past history

I removed the <u>Tax Certification Course</u>, as we are both Certified now (-\$245.00)

<u>**Tax Liens/Instruments:**</u> This line item is being decreased by \$500.00 and contains 1 subline;

Cost for mortgagee searches this amount is paid to a company who researches mortgages and notifies them by certified mail that a lien has been placed on a property. It is completely reimbursed when the first payment for a lien is made. We are charged \$15.00 per search and certified letter that is mailed. Last year this line was raised by \$500.00 due to an overdraw of the account in 2014, (more liens placed =more lien searches required.) In 2015 the number of liens dropped and the account has leftover money. I feel comfortable lowering this account based on 2015 history of lien searches.

4) Part Time Wages: This line item contains 2 sublines and is being decreased by \$266.00;

<u>Full Time Deputy Wages (Union):</u> For 2016 this includes a contractual "step" raise of .09 cents per hour. This line also includes an estimated 70 hours of extra time as the Deputy must be in the office 40 hours per week when the Tax Collector is away for vacation, or conferences, or training etc. The Deputy wages are based on a 35 hour work week, but the office is open a total of 40 hours a week, and she also works extra hours at tax time when we extend the office hours by approximately 16 hours per year. She also receives overtime for any hours worked over 40 hours, which only happens twice a year at tax time.

<u>1 Part Time Clerk (Non-Union)</u>: This line has been lowered by 25 est. hours needed (from 100 to 75 hours). This is an estimate of hours for help needed during tax time, or if we need to both be out of the office for a workshop or training.

With the increase in Full Time Deputy wages, and the decrease in the Part Time Clerk estimated hours, this line is decreased over all by \$266.00

5) Elected Official Wages: This line item is being increased by \$4,622.00;

Elected Full Time Tax Collector: This line is being increased by 9% raise. (I have worked in this office since 2007 and have been Tax Collector since 2009. In the 8 years that I have worked here I have received only 1 raise. With this raise, I am still the lowest paid Department Head, and I am responsible for \$50 million dollars in collections every year. Please see the following page for further explanation as to what the tax office does and why I think this raise is justified. Also, being an Elected Official, I am not considered part of the Dept. Head raises, nor part of the Union raises, nor part of the Non-Union raises. Therefore, because the Elected Officials raises only come by way of budget approval or warrant article, they are few and far between, and the percentage amount grows with each passing year of no raises. Might I suggest perhaps we develop a "Wage Scale for Elected Officials" such as the Town of Seabrook and Exeter use, where depending on the number of years worked there are "step" increases. This might be easier for all involved.)

TOTAL 2016 BUDGET: \$102,573.00 INCREASE OF \$2,080.00 FROM 2015 (DEFAULT) BUDGET

O w gih **G**eed alk Calle(70 While most people...including some of those on the budget committee...think this office is only busy twice a year, truth is we are busy every day. You might not see people waiting in line at our window, but this office is busy every day with "behind the scenes" work. We are always processing payments, received at the window, through the mail, and online. A lot of these payments are partial payments...\$50.00 to \$100.00 at a time. Every one of these partial payments takes time to process, keep a running balance and give receipts. We balance our work daily, weekly and monthly and audit all books/accounts monthly.

Last year we have had a couple "firsts" for our office. We had our first Land Use Change tax that remained unpaid for 2014 and was liened. We had to keep stringent records on interest accrual and payments, as these are not recorded in our software system. (We are working with Interware on that point.)

We also had our first Deeded property (since I've been here) that had a house on it and the owner wanted the property back after it was deeded. While the auction/sale of this property is now out of the Tax Collector's role of responsibility, there is a running "Invoice" on the property that I must update twice a month for ongoing taxes and interest as well as other bills (such as DPW costs and Attorney costs). This again is done "by hand" as it's not in our computer system.

This year we mailed 660 Notice of Tax Delinquencies in January. In April we mailed 360 certified Notice of Impending Tax Liens, and in May placed liens on 213 parcels. In May we also mailed 53 Certified Notice of Impending Tax Deeds and in June the Town Deeded 3 parcels, and have waived 3 parcels due to payment agreements. Every one of these parcels that are unpaid creates a ton of work in the Tax Office...work that no one but us "sees".

At the same time we were getting the lien notices ready we were also helping the Assessor create a July 2015 Tax Warrant, and were also creating new tax bills. This means we were dealing with liening, deeding, tax warrants and new tax bills, all at the same time. We are also answering phones, emails, printing tax statements, and helping people with their Federal taxes. We are also processing Federal Tax Reports. This takes an incredible amount of work, time balancing, and prioritizing, that again nobody actually "sees" us doing! We do this work every day of every year and always provide the property owners, Attorneys, closing companies, and other Town departments help when needed and we do this with a cheerful attitude. I cannot tell you how many times I have heard "You ladies in the Tax Office are a pleasure to deal with." We even helped stop a foreclosure auction on a property that had been place in foreclosure by a mortgage company accidently. This is what we do every day.

Last year I provided the Selectmen a report on what the Tax Office does every day, in order to show why we needed a full time Deputy. I mailed it to the Budget Committee Chairman TWICE, and asked that it be forwarded to the committee members but never got a response, from either the Chairman or the committee members. Even AFTER that was sent to the Budget Committee I still had a member ask me "Is it truthful to say you (the Tax Office) are only busy twice a year?" So, the answer to that question is still a resounding "NO."

I am attaching the same document I mailed the Budget Committee chairman last year for your review.

Ortj ___ $cb^0C E^cO7Y$ -)

What does the Tax Office do year round?

This is what everyone knows we do:

Take payments and apply to the correct parcel numbers

Deposit checks and cash in a timely manner

Keep accurate records for auditors

Answer question in the office and on the phone

This is what everyone may not realize we do in addition to what I just stated:

We work alongside the assessor's office to create the tax warrants twice a year

We create and send out 19,000 BILLS of current taxes due per year

Again, we collect approximately 50 million dollars a year an average of one million dollars a week

At tax time the deputy processes approximately 1200 payments a day on the computer

We resend approximately 300 tax bills that are returned to us due to problems with mailing addresses

We process all our checks through a scanner on a daily basis and verify each check the scanner can't read, this fairly new system delivers the checks directly to the bank so the town has their money about 2 days earlier than in prior years

Every year we mail 750 letters of overdue taxes, 450 certified letters of impending liens, 70 letters of impending deeding and 40 certified letters to mortgagees

We place liens on 250 properties each year. We take partial payments on all taxes and those are recorded in the computer system, and handwritten receipts for every partial payment are given to the property owner each time they come in. We have 645 property owners that are on our uncollected list totaling over 1.5 million dollars.

We create bills for Land Use change bills, Yield tax bills, and Excavation taxes, and we manually maintain these records

We redeem paid off liens to the registry of deeds within 30 days of payoff

We create export files for current, and delinquent, taxes to mortgage companies for payment of taxes

We process imported files from mortgage companies for payment of 4 million dollars' worth of current taxes, in the past this took a week to process and we've been able to streamline this down to get that money into the bank account in one day's work.

We keep accurate records for 6 years of outstanding liens as well as the current taxes due

We balance on a daily, weekly, monthly and yearly basis for all 7 years of taxes due

We audit all 7 years of taxes and interest on a monthly basis

We send quarterly census forms to the US Government

We send proof of claim documents to the bankruptcy court for people in bankruptcy who owe taxes

We attend bankruptcy hearings if it is necessary to represent the Town in order to collect the taxes due

We attend court cases where we are subpoenaed

We help process spreadsheet for Sewer abatements, in the past the interest due was figured by hand

We process abatements in computer and abatement refunds to the finance department

We process refunds for overpaid taxes

We process NSF checks and contact property owners to get repaid

We research tax payments for current years and for prior years for people who need to prove they owned properties in the past...anything older than 2009 are paper records and stored in the vault downstairs

We print tax statements for people who need the records for federal taxes or to get a beach sticker

We have both attended a 3 year certification course and graduated with honors

We attend yearly meetings of the tax collector's association to maintain our certification

We work closely with the finance department to assure that all GL accounts relating to taxes are accurate

We also work closely with the auditors yearly to be sure that all tax accounting is accurate

During tax time we do all the above and process about 300 pieces of mail daily, And....We are the only tax office in the state that runs a drive thru window!

Sincerek
